SC32 N0581

Minutes of the Ad-hoc Meeting on the OMG's informal intensions for MOF & XMI PAS

Date: 11th Nov. 2000, at SC32 Helsinki Meeting

Attendee:

Chair: Hajime Horiuchi (WG2 Liaison to OMG)

Disposition and Recommendations:

- Most of the attendees considered SC32 is appropriate place to accept OMG PAS fast-tracking on both MOF and XMI, rather than SC7.
- The meeting result should be informed OMG in informally through the liaison.
- A drafting committee should be formulated within WG2 to spell-out the contents of an agreement to be contracted with OMG. Mr. Tim Bourne (UK), Jean Berube (Canada), and Hajime Horiuchi(Japan) were nominated as members of the committee.
- A couple of things were identified which should be considered as major contents of the procedure or the MOU;
 - (1) Each Working Group of SC32 should nominate an individual to be informed of such negotiations.
 - (2) Each Working Group shall be in charge of handling the PAS submissions according to the technical contents of the submissions, however, the ballots should be handled by SC32.
 - (3) Other OMG standards, such as CWM have to investigated to be submitted to SC32.
- Typical and ideal collaborations between ISO and other industrial consortia should be investigated through MOF and XMI PAS submissions
