## **Important Information Requirement for Abstracts when submitting FDIS**

As of 2002-05-01, it is required to provide an abstract when submitting a draft standard to ITTF for **FDIS ballot and/or publication**. Note, however, that it is not necessary to provide abstracts for standards which are to be published as common text with ITU-T, as the ITU summary will be used for that purpose.

A specification providing guidelines for the creation and submission of abstracts, a template for their preparation and examples of abstracts are available on the ITTF website (<http://www.iso.org/ittf/>) under "[Procedures/Abstracts](#)".

Any comments or questions about the above documents should be sent to [ittf@iso.org](mailto:ittf@iso.org).
