balloting

Date: May 26th, 2008

Source: Hajime Horiuchi (Liaison to OMG)

Reference: SC32N1712

Body:

The ballot on the ISO/IEC DIS 19504 (PAS) was closed on the last Dec. 25th, 2007 with the voting result, such as 12 Approvals, 1 Against, 15 Abstains and 12 not voted.

However, 2 national bodies made comments. Then, by the JTC1 directive 14.4.3.8, it is required to have a Ballot Resolution Meeting.

After negotiations with OMG, the ballot resolution meeting (BRM) should be hold by the controlled email based discussions.

The liaison asked the SC32 secretariat to circulate the balloting result and to recruit volunteer who want to participate to the BRM.

OMG had completed the registration of those members to their distinguished mailing list.

At the New York meeting, as the SC32WG2 resolution-16, Hajime Horiuchi was assigned to the editor for CWM PAS submission and also, Masao Okabe was assigned to the expected PAS submission on the ODM.

However,

By the JTC1 directive (14.4.3.7), the editor of those documents should be responsible to the PAS submitter side and the role of convener to be assigned to the ISO side.

Then, it should be needed to re-assign Hajime Horiuchi and Masao Okabe as the convener on these regard

The BRM on CWM by email will be initiated as soon as possible after the inauguration of Hajime Horiuchi as the convener.

Hajime Horiuchi,
