CA 01	4.7.20	Having relation	te	There is a defect in ISO/IEC 11179-3:2003 +COR1, where one of the roles on the data_element_concept_concpetual_domain relationship in Figure 8 was changed from 'specifying' to 'having'. Figure 3 still shows the original name. WG2 agreed that the Figure 8 needs to be corrected. This has lead to an error in this clause.	The second occurrence of 'having_relation/#index' should be changed to: 'specifying_relation/#index, and marked as optional.	
CA 02	4.7.21	specifying relation	te	The entry specifying_relation is incorrect.	Specifying_relation should be changed to 'having relation'.	
CA 03	All	All	Ge	Any open issues on the WG2 Issues site (Bugzilla) pertaining to this document should be resolved.	None provided with comment.

**	General		ed	The document incorrectly references itself.	The document shall reference itself throughout (except in the fixed introductory paragraphs to Clauses 2 and 3) as "this part of ISO/IEC 20944.  Other parts shall be referenced as "ISO/IEC 20944-n".  The series as a whole shall be referenced as "ISO/IEC 20944".	
**	2		ed	In accordance with ISO/IEC Directives Part 2, 6.2.2, normative references listed in this clause shall be cited elsewhere in the document "in a normative manner"; i.e. in a way which indicates that the user is obliged to consult them in order to apply the document.	In the current draft, neither 11404 nor RFC 2068 is cited elsewhere in the document.  TR 10000-1 is cited, but it is not explicitly stated that the user must consult it. If it is indispensable to the user, redraft, for example, as follows:  "The general principles of a profile <b>shall be</b> as specified in ISO/IEC TR 10000-1 ..."  Otherwise, move TR 10000-1 to a bibliography at the end of the document.	
**	Footnote 2		ed	This type of information is not given in International Standards	Delete footnote 2.	
**	3		ed	Introductory paragraph not drafted in accordance with the ISO/IEC Directives Part 2.  Footnote 3 is unclear and gives no useful information.	Replace first sentence with:  "For the purposes of this document, the terms and definitions given in ISO/IEC 20944-1 apply."  Delete footnote 3.	
**	General		ed	Cross-references to specific elements of other documents shall be to a specific edition and shall include date of publication, since the specific clause, table, etc. mentioned may have a different number in a later edition.	Redraft NOTE in 4.7 and first sentence in 6.1 to give a date of publication.	
**	General		ed	Document incorrectly uses the phrase "this Clause" throughout.	Re-draft document so that the term "clause" begins with a lower case "c", unless it is used to refer to a clause elsewhere in the document, in which case it shall be spelled with a capital "C"

					and followed by the clause number in question.	
**	General		ed	Document incorrectly uses the term "subclause" throughout.	In accordance with ISO/IEC Directives Part 2, 6.6.7.3.1, it is unnecessary to precede a reference to a subclause with both the term "subclause" and the subclause reference number.  Remove the term subclause throughout document, leaving only the reference number of the subclause.	
**	Annexes		ed	Not drafted in accordance with ISO/IEC Directives Part 2, 6.4.1.	Annexes shall be their own entity and not part of a clause in the main body of the document.  Re-draft document, removing references to Clause 6. Clauses shall be numbered A.1, A.2, A.3, etc.  Present annex title as follows:  <b>Annex A</b> (informative)  <b>Developing and using profiles</b>  In addition, the annex status (normative or informative) shall appear between the annex designation and annex title in the Table of contents.
