JTC 1/SC 32/WG 03 Resolutions,
2008-11-21
Vilamoura, Portugal

Resolution WG 03 / 1: SC 32/ WG3 Meeting – Thanks to our hosts for organizing the Meeting Arrangements

The WG3 meeting expresses its thanks to Baba Priprani and Jörn Bartels, for organizing the meeting arrangements in Vilamoura, Portugal.

Resolution WG 03 / 2: SC 32/ WG3 Meeting – Thanks to management and staff of the Tivoli Hotel

The WG3 meeting expresses particular thanks to the management and staff of the Tivoli Hotel, for friendly, high quality service.

Baba Piprani is requested to convey our thanks.

Resolution WG 03 / 3: SC 32/ WG3 Meeting – SC 32/WG 3 requests the SC 32 Secretariat, upon receipt of texts but not before 19 January 2009, to register as CDs, PDAMs, PDISPs, PDTRs and issue letter ballots on the following projects:

Project Number	CD	Title	Date Expected
1.32.03.07.01.00	1	SQL/Framework	2009-01-19
1.32.03.07.02.00	1	SQL/Foundation	2009-01-19
1.32.03.07.04.00	1	SQL/PSM	2009-01-19
1.32.03.07.11.00	1	SQL/Schemata	2009-01-19
1.32.03.08.14.00	1	SQL/XML	2009-01-19

Rationale Summary:

SC32 approved project splits for these five parts at the 2007 New York meeting. WG3 is beginning progression of these parts with a target of completing new versions in 2011. Initiating the CD ballot on 19 January 2009 allows the ballot to close two months before the start of the June 2009 SC32 meeting in Korea. Because of end-of-the-year holidays, vacations, etc., there is no benefit in starting the ballot earlier than 19 January 2009.

Resolution WG 03 / 4: SC 32/ WG3 Meeting – As soon as text are available, Register REGEX Technical Report as a working draft.

Project Number	WD	Title	Date Expected
1.32.09.01.01.00	1	Technical Reports on ISO/IEC 9075 - Part 1: Regular Expressions	2009-01-19

Rationale Summary:

In 2005, SC32 approved a WG3 project to develop type 3 Technical Reports on the ISO/IEC 9075 standard. The material in “Technical Reports on ISO/IEC 9075 - Part 1: Regular Expressions” was extracted from the descriptive material in WG3:WLG-027, which added a number of regular expression capabilities to the 9075:2008 standard published 17 July 2008. This material is useful in understanding the capabilities in 9075:2008, but is not normative.

The ISO information for this project is:
