JTC 1/SC 32/WG 03 Resolutions, 2005-04-12, Berlin, Germany

Section 1 - Programme of Work Resolutions

Resolution WG 03 / 1: SC 32/WG 03 Programme of Work and Project Editor Assignments
SC 32/WG **03** approves the Programme of Work, Target Dates and Project Editor Assignments contained in SC 32/WG **03** N0095) (TXL-081).

Resolution WG 03 / 2: SC 32/WG 03 Project Subdivisions
SC 32/WG **03** approves the following subdivisions and minor enhancements to existing work:

Project Number	Title	Project Editor	Rationale Doc #
1.32.03.07.14.00	ISO/IEC FDIS 9075-14	SQL/XML	32N1299

Rationale Summary:
Because of market demand for additional capabilities, WG 3 immediately started revision of SQL/XML, part 14, based on SQL:2003. This revision is expected to be complete in the last half of 2005.

In the mean time, WG 3 started on a revision of the other eight SQL parts. This revision has just completed an initial CD ballot and is undergoing editing.

We now need to harmonize SQL/XML with the enhancements in the other SQL parts and we anticipate additional expansion of SQL/XML to encompass developing market demands. In particular, the W3C has published a second public review of XQuery Full Text and a public working draft of the XQuery Update language requirements. Both areas will require additional support within SQL/XML.

Recognizing these circumstances, the USA requests SC32 to authorize a subdivision of existing projects to allow continued development of SQL/XML Part 14 in anticipation of yet another edition of the standard.

SC 32/WG **03** instructs its Convener to forward these subdivisions to SC 32 for endorsement.

Resolution WG 03 / 3: SC 32/WG 03 Project Withdrawals
SC 32/WG **03** approves the following withdrawals from existing work:

Project Number	Title	Rationale Doc #
1.32.03.04.05.00	ISO/IEC 9075-5:1999 (E) Database Language SQL— Part 5: Host Language Bindings (SQL/Bindings)	ISO/IEC JTC 1/SC 32 N01084

Rationale Summary: Because they didn't understand the last time.

Upon receipt of texts, SC 32/WG **03** instructs its Convener to forward these withdrawals to SC

32 for endorsement.

Resolution WG 03 / 4: Standards Due for Periodic Review
SC 32/WG **03** approves the following:

Project Number	Title	Recommendation

SC 32/WG **03** instructs its Convener to inform SC 32 of the above recommendations.

Resolution WG 03 / 5: New Projects

Section 5 - SC 32/WG 03 Other Resolutions

Resolution WG 03 / 13: SC 32/WG 03 Outgoing Convenor
SC 32/WG **03** approves the following and requests SC32's endorsement:

We wish to thank Mr. Stephen Cannan the outgoing convenor, for being at the helm of WG3 since 1996. During his convenorship, he has championed SQL:1999, SQL:2003, including promoting new parts of current interest such as SQL/JRT and SQL/XML, and the re-alignment of the several parts of SQL to enable orthogonal treatment of SQL. This has facilitated harmonization and parallel progression of SQL. We wish him the best on his new endeavours.

Resolution WG 03 / 14: SC 32/WG 03 Incoming Convenor
SC 32/WG **03** approves the following and requests SC32's endorsement:

Appointment of Mr. Keith Hare as WG3 convenor.
Mr Hare has been formally sponsored and approved by the US National Body.

We congratulate Mr. Hare in picking up this very challenging appointment and welcome him on board. Mr. Hare is an independent consultant in the US, and brings with him a wide experience in database management. He has been very active on the US NCITS H2 Database Language working group for over a decade and a half and is no stranger to the international WG3 forum.

Resolution WG 03 / 15: SC 32/WG 03 Visibility of the Document Publication Process
SC 32/WG **03** approves the following and requests SC32's endorsement:

The publication of standards and technical corrigenda is an opaque process and appears to be subject to inordinate and unexplained delay.
As example, the experience of the various technical corrigenda for ISO/IEC 9075 can be cited. The last published corrigendum disappeared for nearly a year into an administrative black hole and was only rescued after repeated requests from the SC32 secretariat.
The current corrigendum, after the receipt and response to a number of mistaken statements and requests, disappeared for nearly 4 months until again repeated requests from the SC32 secretariat elicited a response from the editors in Geneva. These included requests for changes in formats which were found acceptable in previous editions, requests for changes of dates caused by the delays in Geneva and misstatements about the status of a part of the standard. In order to provide the project editors and the secretariat with a better picture of what is happening to their documents,

WG3 requests SC32 to request JTC1 to require the editors in Geneva to provide the project editors and the secretariat with a detailed plan for the publication of the document within 2 weeks of its submission and to report immediately any deviation from that plan.
